About e-Book shared building

The question points:

I.   Draft general indications   (by EdaFirum, Glenda Galeotti) (shared by gmail group)
1. who write what (you can contribute sending your work to Glenda)
2. however the last word/work competes to EdaForum (Glenda, Gilda, and staff of EdaForum-Fi)

II.   About the contens:

1.   see examples on blog http://congenialebook.wordpress.com/2013/11/23/starting-working-collaboratively/

2.   23 days to contribute, till 2014 May 9th, sending all to Glenda glendagaleotti@yahoo.it

3.   rely

III.   question on the format/extension (it is regarding maximum reading on maximum of device)
1. the most common: .pdf (static presentation, but surely executable on pc, mac, android, kindler and much more), .ibook (for mac and few more), .Mobi   Mobipocket eBook Format (Amazon.com Inc.), .ePub (from International Digital Publishing Forum, EPUB it's a open format based on XHTML e XML), to see other in list vist http://www.ebook-reader.it/news/guida-ai-formati-per-ebook-reader/
2. first edition in .pdf, you must agree blind - ☺
3. several extensions in same file using a dedicated program
4. last decision by EdaForum staff per competence.

IV.   Question about attached files (documents, pictures, photoes, videos) where to store the files?

[at the end of e-book there is a page to insert attachments and references]

1.   embedded: only few extentions can accept that solution ☹

2.   conserved in own server of each partner institution [recomended 1st ☺]

3.   external servers (<u>youtube</u> for videos and <u>webalbum</u> for photo-album) [recomended 2nd]   this solution riquired upload by every partner too.

remote help and assistance by EdaForum (Renato) is guaranteed: <u>renalut@live.it</u>   0039 3292170677

That last question, about attached files, videos and photo albums is crucial and critical, because from the solution depend the richness of media and archives reached from our ebook; and more, its slimness and fluency in reading; and finally , this consideration influences the adoption of the final standard of publishing/reading.
